verda organic

COMPANY PROFILE

Fresh produce and specialty foods

Verda Organic

Verda Organic is a food sourcing and trading company founded in Alicante, Spain, in 2026. We source fresh fruit and vegetables, organic foods and pantry staples for grocers, wholesalers and professional kitchens.

Our first market is the United Arab Emirates, where Carrefour UAE is the retailer we plan to approach first. We also plan to supply buyers in Spain from our Alicante base.

Our range reflects the foods of the Mediterranean: citrus, figs, almonds and olive oil. We also look further afield for fruit that is harder to find, including yellow pitaya, finger limes and mangosteen.

FOOD SOURCING & TRADE

Our services

Produce sourcing

For each enquiry we compare varieties, growing regions and harvest windows. The buyer can then assess the grade, pack size and quantity available.

Import & export

We coordinate the order with the supplier and freight partner. Before dispatch, we agree on the documents, delivery terms and handling the goods require.

Packing & handling

Citrus can travel in ventilated cases. Berries and ripe figs need smaller packs and more protection. We agree on packaging and arrival condition for each line.

Retail & foodservice

For shops we look at shelf presentation and pack size. For kitchens we look at ripeness, usable yield and how often the chef needs a delivery.

FRUIT & VEGETABLES

Our fresh products

Vegetables

Tomatoes, sweet peppers, aubergines and courgettes form the Mediterranean selection. Other lines include broccoli, cauliflower, leafy greens, onions, garlic and ginger.

Fruits

Citrus includes oranges, mandarins, lemons and limes. We also source grapes, pomegranates, mangoes and avocados, with figs and stone fruit in season.

SPECIALTY FRUIT

Finger limes release tiny pearls of sharp citrus juice. Mangosteen has soft white segments inside a purple rind. Yellow pitaya is sweet enough to serve simply halved and chilled.

ORGANIC FOODS & PANTRY

Our products

The pantry range pairs Mediterranean ingredients for retail shelves with larger formats for hospitality buyers.

Organic & bio

For an organic enquiry, we check that the supplier’s certificate covers the product and its intended market.

Pantry foods

Extra virgin olive oil, table olives, honey, almonds, dried figs, chickpeas and lentils, with selected spices on request.

TRADE ENQUIRIES

Alicante office

For a product enquiry, include the variety, quantity, pack size and destination. For seasonal produce, please include your preferred delivery dates.
